Empowering new generations to appreciate, understand and wisely use the land through science, education and action

Day Camps

Ages: 6 - 13

Nature Day Camp

July 22 - 26

By popular demand, it wouldn't be summer if we didn't devote a full week to exploring nature up close, including a canoe trip on the nearby Clyde River, a hike up a local peak, investigations into pond life, and team games and challenges that focus on exploring our connections to each other and the natural world.

Time: 9am Mon – 4pm Fri

Fee: \$200, includes a healthy lunch

Survival Day Camp

July 29 - August 1

For 20-plus years, NorthWoods Staff has been sharing their passion for exploring (and surviving) in the woods. While we'll still sample all the favorite summer pastimes, like swimming, canoeing, games and team challenges, we'll also get hands-on with primitive bush skills, like shelter and fire-building, orienteering and tracking. On the Wednesday evening campout, we'll set up tents, tune our senses to the night, and sleep under the summer sky. Camp ends on Thursday.

Time: 9am Mon - 4pm Thurs; Wed Night Campout

Fee: \$200, includes a healthy lunch

Expeditions & Training

Ages: 10 - 14

White Mountain Hiker

June 17 - 19

Explore alpine territory high in the Presidential Range of the White Mountains from a rustic lodge. Learn leave-no-trace ethics, backcountry travel skills, and knowledge of the geology and ecology of the high mountains. Good physical fitness required. Register by May 15.

Time: 9am Mon - 4pm Wed Fee: \$175

Field Science Research Camp

July 12 - 14

The budding ecologist will gain a variety of field science experiences in this overnight camp focused on the themes of forest, sky and water. Activities may include small mammal trapping, weather forecasting, bird-banding, forest inventories, or wetland surveys using mask and snorkel. Have fun and deepen your understanding of the natural world while working alongside scientists and other natural resource professionals. Register by June 1.

Time: 8:30am Fri - 5pm Sun Fee: \$200

Conservation Training Camp

August 12 - 16

Since 1995, the NorthWoods Conservation Corps has provided conservation-service learning training and employment for young adults. Whether you want to glimpse a week in the life of a crew member, or get hands-on conservation work experience, this camp is for you. Campers will learn about tool maintenance, work safety, wildlife habitat, bridge-building, trail work, and other conservation skills to engage in real conservation efforts in the local community. Campers will carve a custom axe handle to take home. Swimming, team-building and environmental education included. (Must be physically fit and capable of working in a challenging environment.)

Time: 8:30am Mon - 4pm Fri; Thurs Night Campout

Fee: \$250, includes a healthy lunch

Canoe Journeys

Ages: 10 - 14

Northern Explorers

The Northern Forest Canoe Trail is a 740-mile waterway traverse from the Adirondacks of New York to the Allagash of Maine. NorthWoods will team up again with the NFCT to lead these adventures in VT and NH.

The Journey: Explorers prepare for the journey at the NorthWoods campus, then head to the river. Here, explorers practice in-depth outdoor skills campcraft and wilderness ethics, and gain a new perspective on and appreciation for the natural beauty and cultural significance of these waterways.

July 1-5: Clyde River Explorers

From its headwaters in Island Pond to its terminus in Lake Memphremagog, the Clyde River is made up of distinctive wetlands, flat and quick waters, and a history of legendary salmon runs and Native trade routes. We'll celebrate the 4th of July on the river!

July 8-12: Connecticut River Explorers

From the Class I rapids and quickwater of the northern reaches, to wide meandering stretches, this section of the CT river, from Colebrook to Guildhall teems with soaring birds of prey, expansive views and prime riverside camping.

Time: 11am Mon - 1pm Fri

Fee: Sliding scale based on income (\$200 avg.)
