## Northern Explorers Canoe Camps

Ages 10 - 14

The Northern Forest Canoe Trail is a 740-mile waterway traverse from Old Forge, New York to Fort Kent, Maine. After a successful launch of this program in 2011, NorthWoods will team up again with the NFCT to lead these adventures in VT and NH.

The Journey: Explorers prepare for the journey at the NorthWoods campus, test their team on the challenge course, then head to the river. Here, explorers practice in-depth outdoor skills, wilderness ethics, and campcraft, and gain a new perspective on the cultural significance of these waterways.

## Clyde River Explorers July 7 - 11

From its headwaters in Island Pond to its terminus in Lake Memphremagog, the Clyde River is made up of distinctive wetlands, flat and quick waters, and a history of legendary salmon runs and Native trade routes.

## Northern Connecticut River Explorers

From the Class I rapids and quickwater of the northern reaches, to wide meandering stretches, this section of the CT River, from Colebrook to Guildhall teems with soaring birds of prey, expansive views and prime riverside camping.
